

# Maritime Technology Researcher

## Job description

Do you want to join a team and play a vital role in enhancing our data-driven decision-making and supporting the wider maritime industry through strategic data analysis and reporting? Do you want to analyse data and generate insights that help drive positive change? If so, we would love to hear from you!

## About Thetius

Thetius is a research firm that helps maritime industry leaders make strategic technology decisions. Our mission is to provide industry operators, technology suppliers and investors with the insight they need to make decisions quickly and confidently. Our vision is to become the research partner of choice for organisations using emerging technology to enable safer, more sustainable and more profitable maritime operations.

## Values: what is important to us?

- Excellence - We aim to master our work
- Improvement - We seek to get better
- Curiosity - We ask how and why
- Dependability - We support each other to get the job done
- Impartiality - We seek the truth, even when it's uncomfortable

## About the role

We are seeking a dynamic and analytical researcher to join our team at Thetius on a full-time basis. A key member of our Insight team, you will spend your time capturing and refining the data that supports our technology intelligence platform, and using that data to answer difficult questions for clients.

Our research team works at the intersection between data analysis and storytelling. You should be just as comfortable with your nose in a spreadsheet as you are writing a 10,000-word report. You should have no problem presenting to large groups of people, and you should be obsessed with helping people find answers to complex problems.

You are also an outstanding communicator, with the ability to create engaging written and oral content. You have an analytical mind and the ability to deliver under pressure.

## **Key Responsibilities:**

### **Delivery of Thetius IQ for subscribers**

- Take a significant role in the end-to-end delivery of Thetius IQ, ensuring the platform meets or exceeds subscriber expectations.
- Collaborate with wider Thetius team members to define and implement enhancements to Thetius IQ based on subscriber feedback and evolving market needs.

### **Production and Development of Reports**

- Lead the production and development of comprehensive reports, including Market Landscape Reports and Analyst Briefings. Where required ensure that reports are tailored to address subscriber requirements.
- Ensure the accuracy, relevance and timeliness of reports using data analysis techniques and visualisation tools.

### **Development of New Features, Frameworks and Tools**

- Take a proactive approach to the development, design and implementation of new features and tools within Thetius IQ to enhance user experience and platform capabilities based on user feedback and industry best practices.
- Provide insights into market trends and subscriber needs to inform future Thetius developments.

### **Quality Assurance and Data Integrity**

- Implement rigorous quality assurance measures to ensure data accuracy and integrity within Thetius IQ.
- Collaborate with internal and external teams to address any discrepancies and improve data quality.

## **About you**

- Excellent written and verbal communication skills.
- Ability to work independently and collaboratively in a fast-paced environment.
- A strong work ethic, coupled with an analytical mind and genuine interest and eagerness to learn.

## Why join us?

Our work places us at the centre of one of the most important transformations in the modern world. Our clients include FTSE 100 companies, energy majors, trade bodies, investors, and technology businesses. We are right at the beginning of our story as a company but we have an ambitious plan in place to grow fast and become a leader in our field, you will be an integral part of that journey.

## What we can offer you:

At Thetius, we offer more than just a job. We provide a pathway to a fulfilling career. Enjoy a competitive salary for your location, coupled with the opportunity to share in our success through our profit share scheme. Join a supportive team that values curiosity, learning and development, where your professional development is actively encouraged. Benefit from a generous holiday allowance, ensuring you have time to recharge.

Thetius is an equal opportunities employer and we encourage applications from all backgrounds to apply. Join Thetius and be a key player in shaping the future of maritime industry insights!
